研发团队 / R & D team

公司十多年来立足技术创新，坚持走自主研发之路，利用优厚的待遇和通畅的晋升之路，吸收了大量行业之技术精英，现有高级研发技术人员20多人，中级研发人员40多名，专业品保人员50多名，从产品结构，电路设计到精密模具开发所有过程均於总部研发部完成，确保了产品开发效率和质量。

The company based on 10 years of technology innovation, adhere to the road of independent research and development, the use of preferential treatment and the promotion of smooth road, absorbing a large number of industries the technical elite, the existing high-level R & D and technical personnel 20 people, more than 40 mid-level R & D personnel professional quality assurance staff of more than 50, from the product structure, circuit design to the development of all the process of precision molds are completed at the headquarters R & D department to ensure that product development efficiency and quality.

研发成果

R & D Achievements

精密连接器方面：自主开发USB C TYPE界面接口运用充电器，移动电源，硬盘等高端传输及快速充电设备被多家公司采用，极大提高了企业在同行的知名度，为提高公司竞争力，减少产品加工成本，公司自主开发出一系列自动机，在同行中具有相当成本优势。

Precision connectors areas: self-developed USB C TYPE interface interface used car DVD, mini-hard drive, the product pitch 0.4mm, in the advanced level in dealing with peers, with the first-line PC manufacturers to develop a USB 3.0 version series of connectors, many companies have been adopted greatly increasing the visibility of companies in the peer, in order to enhance competitiveness of the company to reduce product manufacturing cost, the company independently developed a series of automatic machines, in the peer that has a considerable cost advantage.
